

sysio::chain::protocol
_feature_manager::lower_bound

sysio::chain::protocol
_feature_manager::upper_bound

sysio::chain::protocol
_feature_manager::begin

```
graph LR; A["sysio::chain::protocol<br/>_feature_manager::lower_bound"] --> C["sysio::chain::protocol<br/>_feature_manager::begin"]; B["sysio::chain::protocol<br/>_feature_manager::upper_bound"] --> C;
```

The diagram illustrates a relationship between three components. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'sysio::chain::protocol' followed by '_feature_manager::lower_bound' on the next line. The bottom box contains 'sysio::chain::protocol' followed by '_feature_manager::upper_bound' on the next line. Two blue arrows originate from the right side of these boxes. The arrow from the top box points to the top of a gray rectangular box on the right. The arrow from the bottom box points to the bottom of the same gray box. The gray box contains the text 'sysio::chain::protocol' followed by '_feature_manager::begin' on the next line.
