

validate_func

```
graph LR; A[validate_func] --> B[websocketpp::endpoint::send];
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'validate_func'. A blue arrow points from the right side of this box to the left side of a larger white rectangular box on the right. This white box contains the text 'websocketpp::endpoint' on the top line and '::send' on the bottom line.

websocketpp::endpoint
::send
