

libraries/appbase/include
/appbase/execution_priority
_queue.hpp

boost/asio.hpp

queue

```
graph TD; A["libraries/appbase/include/appbase/execution_priority_queue.hpp"] --> B["boost/asio.hpp"]; A --> C["queue"];
```

The diagram illustrates the dependencies of the header file `libraries/appbase/include/appbase/execution_priority_queue.hpp`. Two blue arrows point from this header to the files `boost/asio.hpp` and `queue`, indicating that it includes or depends on both.
