

```
enable_shared_from  
_this< connection< config > >
```

```
graph BT; stub_con[stub_con< config >] --> websocketpp[websocketpp::transport::iostream::connection< config >]; websocketpp --> enable_shared_from[enable_shared_from_this< connection< config > >];
```

The diagram illustrates a sequence of three boxes connected by upward-pointing blue arrows. The bottom box is white with a black border and contains the text 'stub_con< config >'. The middle box is gray with a black border and contains the text 'websocketpp::transport::iostream::connection< config >'. The top box is white with a black border and contains the text 'enable_shared_from_this< connection< config > >'. The arrows indicate a flow from the bottom box to the middle box, and from the middle box to the top box.

```
websocketpp::transport  
::iostream::connection  
< config >
```

```
stub_con< config >
```
