

GenericValue::GenericValue

GenericValue::SetObjectRaw

GenericValue::SetMembers
Pointer

```
graph LR; A[GenericValue::GenericValue] --> C[GenericValue::SetMembers Pointer]; B[GenericValue::SetObjectRaw] --> C;
```

The diagram illustrates a relationship between two functions and a common target. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'GenericValue::GenericValue' and the bottom box contains 'GenericValue::SetObjectRaw'. On the right, there is a gray rectangular box with a black border containing the text 'GenericValue::SetMembers' on the top line and 'Pointer' on the bottom line. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both functions interact with or point to the 'SetMembers' member.
