

Catch::XmlReporter
::assertionEnded

Catch::XmlReporter
::sectionStarting

Catch::XmlReporter
::testCaseStarting

Catch::XmlReporter
::writeSourceInfo

```
graph LR; A[Catch::XmlReporter::assertionEnded] --> D[Catch::XmlReporter::writeSourceInfo]; B[Catch::XmlReporter::sectionStarting] --> D; C[Catch::XmlReporter::testCaseStarting] --> D;
```

The diagram illustrates a flow where three distinct methods from the `Catch::XmlReporter` namespace are directed towards a single target method, `writeSourceInfo`. The source methods are `assertionEnded`, `sectionStarting`, and `testCaseStarting`, each enclosed in a white box with a black border. The target method, `writeSourceInfo`, is enclosed in a gray box with a black border. Three blue arrows originate from the right side of the source boxes and point towards the left side of the target box, indicating a convergence of data or control flow.
