The diagram illustrates a header file inclusion relationship. At the top, a grey box contains the header file path: `libraries/chain/include/sysio/chain/webassembly/sys-vm-oc/compile_monitor.hpp`. Below it, two white boxes represent source files. The left box contains `libraries/chain/webassembly/runtimes/sys-vm-oc/code_cache.cpp` and the right box contains `libraries/chain/webassembly/runtimes/sys-vm-oc/compile_monitor.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.
