

cybozu::CpuClock::put

```
graph LR; A[cybozu::CpuClock::put] --> B[cybozu::CpuClock::getClock]
```

A diagram showing a call from the `cybozu::CpuClock::put` function to the `cybozu::CpuClock::getClock` function. The `put` function is represented by a white box with a black border, and the `getClock` function is represented by a gray box with a black border. A blue arrow points from the `put` box to the `getClock` box.

cybozu::CpuClock::getClock
