

sysio::connection::  
blk\_send\_branch\_impl

sysio::connection::  
handle\_message

sysio::connection::  
enqueue\_sync\_block

```
graph LR; A["sysio::connection::blk_send_branch_impl"] --> C["sysio::connection::enqueue_sync_block"]; B["sysio::connection::handle_message"] --> C;
```

The diagram illustrates a call graph where two functions, `sysio::connection::blk_send_branch_impl` and `sysio::connection::handle_message`, both call the function `sysio::connection::enqueue_sync_block`. The source functions are in white boxes, and the target function is in a gray box. Blue arrows indicate the direction of the calls.
