

fc::from_variant

fc::from_variant

fc::detail::from_variant
_to_flat_set

```
graph LR; A[fc::from_variant] --> C[fc::detail::from_variant_to_flat_set]; B[fc::from_variant] --> C;
```

The diagram illustrates a mapping or conversion process. On the left, there are two identical white rectangular boxes, each containing the text 'fc::from_variant'. Blue arrows originate from the right side of each of these boxes and point towards a single, larger gray rectangular box on the right. This gray box contains the text 'fc::detail::from_variant' on the top line and '_to_flat_set' on the bottom line. The arrows indicate that both 'fc::from_variant' instances are associated with or converted into the 'fc::detail::from_variant_to_flat_set' structure.
