

websocketpp::config
::core::transport_config

```
graph BT; A[websocketpp::config::asio_tls::transport_config] --> B[websocketpp::config::core::transport_config]
```

A diagram illustrating the relationship between two configuration classes. A light gray box at the bottom contains the text 'websocketpp::config::asio_tls::transport_config'. A blue arrow points upwards from this box to a white box at the top. The white box contains the text 'websocketpp::config::core::transport_config'. This indicates that the bottom class inherits from or is a specialization of the top class.
