

gmock_test_utils.GetSourceDir

gtest_output_test.GTestOutput
Test.testOutput

gtest_test_utils.GetSourceDir

```
graph LR; A[gmock_test_utils.GetSourceDir] --> C[gtest_test_utils.GetSourceDir]; B[gtest_output_test.GTestOutput  
Test.testOutput] --> C;
```

The diagram illustrates a dependency or relationship between three files. On the left, there are two source files: 'gmock_test_utils.GetSourceDir' and 'gtest_output_test.GTestOutput Test.testOutput'. Both of these files have blue arrows pointing to a single target file on the right, 'gtest_test_utils.GetSourceDir'. The target file is shaded gray, while the source files are white with black borders.
