

testing::gmock\_matchers  
\_test::TEST

testing::gmock\_matchers  
\_test::TEST

testing::gmock\_matchers  
\_test::AClass::x

```
graph LR; A[testing::gmock_matchers_test::TEST] --> C[testing::gmock_matchers_test::AClass::x]; B[testing::gmock_matchers_test::TEST] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two white boxes with black borders, one above the other. Both contain the text 'testing::gmock\_matchers\_test::TEST'. On the right, there is a single gray box with a black border, containing the text 'testing::gmock\_matchers\_test::AClass::x'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating a relationship or mapping from the left-hand identifiers to the right-hand identifier.
