

cpp.ast.Class.IsDefinition

cpp.ast.Class.IsExportable

cpp.ast.Type.IsDeclaration

```
graph LR; A[cpp.ast.Class.IsDefinition] --> C[cpp.ast.Type.IsDeclaration]; B[cpp.ast.Class.IsExportable] --> C;
```

The diagram illustrates a logical relationship between three code snippets. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'cpp.ast.Class.IsDefinition' and the bottom box contains 'cpp.ast.Class.IsExportable'. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right. This gray box contains the text 'cpp.ast.Type.IsDeclaration'. The arrows indicate that both 'IsDefinition' and 'IsExportable' are conditions or attributes that lead to or are encompassed by 'IsDeclaration'.
