

f128M_to_f16

```
graph LR; A[f128M_to_f16] --> B[softfloat_roundPackToF16]; B --> C[softfloat_raiseFlags]; B --> D[softfloat_shiftRightJam32];
```

The diagram is a flowchart illustrating the steps of the f128M_to_f16 conversion process. It starts with a grey rectangular box on the left labeled 'f128M_to_f16'. A blue arrow points from this box to a white rectangular box in the center labeled 'softfloat_roundPackToF16'. From this central box, two blue arrows branch out to the right: one points to a white rectangular box labeled 'softfloat_raiseFlags' and the other points to a white rectangular box labeled 'softfloat_shiftRightJam32'. All boxes have a thin black border.
