

testing::internal::
scoped_ptr::reset

```
graph LR; A[testing::internal::scoped_ptr::reset] --> B[testing::internal::IsTrue];
```

A diagram showing a transition from a function call to a boolean state. On the left, a gray box contains the text 'testing::internal::scoped_ptr::reset'. A blue arrow points from this box to a white box on the right. The white box contains the text 'testing::internal::IsTrue'.

testing::internal::
IsTrue
