_test::TEST

testing::gmock_matchers
_test::TEST_F

testing::gmock_matchers
_test::Uncopyable::set_value

```
graph LR; A[testing::gmock_matchers_test::TEST] --> C[testing::gmock_matchers_test::Uncopyable::set_value]; B[testing::gmock_matchers_test::TEST_F] --> C;
```

The diagram illustrates a relationship between two test cases and a common function. On the left, there are two white rectangular boxes. The top box contains the text 'testing::gmock_matchers_test::TEST' and the bottom box contains 'testing::gmock_matchers_test::TEST_F'. On the right, there is a gray rectangular box containing the text 'testing::gmock_matchers_test::Uncopyable::set_value'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both test cases interact with or call the 'set_value' function.
