

libraries/sys-vm/external
/softfloat/source/8086
/softfloat_raiseFlags.c

```
graph TD; A["libraries/sys-vm/external<br/>/softfloat/source/8086<br/>/softfloat_raiseFlags.c"] --> B["platform.h"]; A --> C["softfloat.h"]
```

The diagram illustrates a dependency or relationship between a source file and two header files. A top box contains the full path to the source file: `libraries/sys-vm/external/softfloat/source/8086/softfloat_raiseFlags.c`. Two blue arrows originate from the bottom of this box and point to two separate boxes below. The left box contains `platform.h` and the right box contains `softfloat.h`.

platform.h

softfloat.h
