

sysio::vm::jit\_execution  
\_context::call\_host\_function

```
graph LR; A["sysio::vm::jit_execution  
_context::call_host_function"] --> B["sysio::vm::operand  
_stack_elem::to_f64"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'sysio::vm::jit\_execution' on the first line and '\_context::call\_host\_function' on the second line. The right box is gray with a black border and contains the text 'sysio::vm::operand' on the first line and '\_stack\_elem::to\_f64' on the second line.

sysio::vm::operand  
\_stack\_elem::to\_f64
