testing::internal::TEST

testing::internal::
CaptureStdout

```
graph LR; A[testing::internal::TEST] --> D[testing::internal::CaptureStdout]; B[testing::internal::TEST] --> D; C[testing::internal::TEST] --> D;
```

The diagram illustrates a relationship between three test cases and a capture function. On the left, there are three white rectangular boxes, each containing the text 'testing::internal::TEST'. On the right, there is a gray rectangular box containing the text 'testing::internal::CaptureStdout'. Three blue arrows originate from the right side of each white box and point towards the left side of the gray box, indicating that each test case is associated with or uses the 'CaptureStdout' function.
