

double

```
graph BT; A[Runtime::UntaggedValue] -.->|f64| B[double];
```

The diagram illustrates a coercion or conversion process. At the bottom, there is a gray rectangular box containing the text `Runtime::UntaggedValue`. A dashed purple arrow points upwards from this box to a white rectangular box at the top containing the text `double`. The arrow is labeled with the text `f64` in a light gray font, positioned to the right of the arrow's shaft.

f64

`Runtime::UntaggedValue`
