

LookaheadParserHandler

```
graph BT; LookaheadParser[LookaheadParser] --> LookaheadParserHandler[LookaheadParserHandler];
```

A UML class diagram showing an inheritance relationship. The class 'LookaheadParser' is represented by a gray rectangle at the bottom, and the class 'LookaheadParserHandler' is represented by a white rectangle with a black border at the top. A green arrow points from the top of 'LookaheadParser' to the bottom of 'LookaheadParserHandler', indicating that 'LookaheadParser' inherits from 'LookaheadParserHandler'.
