

sysio::chain::webassembly  
::interface::\_\_unordtf2

```
graph LR; A["sysio::chain::webassembly  
::interface::__unordtf2"] --> B["f128_is_nan"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the Rust symbol `sysio::chain::webassembly::interface::__unordtf2` on two lines. The right box is gray with a black border and contains the function name `f128_is_nan` on one line.
