

fc::sha3::sha3

```
graph LR; A[fc::sha3::sha3] --> B[memcpy]
```

A diagram showing a mapping from the C++ namespace `fc::sha3::sha3` to the C function `memcpy`. The left box is gray and contains the text `fc::sha3::sha3`. A blue arrow points from this box to a white box on the right containing the text `memcpy`. Both boxes have a thin black border.

memcpy
