

libraries/sys-vm/external
/Catch2/include/internal
/catch_startup_exception
_registry.h

```
graph TD; A["libraries/sys-vm/external<br>/Catch2/include/internal<br>/catch_startup_exception<br>_registry.h"] --> B["vector"]; A --> C["exception"]
```

The diagram illustrates a file path structure. A large gray box at the top contains the path: `libraries/sys-vm/external/Catch2/include/internal/catch_startup_exception_registry.h`. Two blue arrows originate from the bottom of this box, pointing to two separate gray boxes below. The left box is labeled `vector` and the right box is labeled `exception`.
