

internal::SchemaValidation  
Context::~~SchemaValidationContext

```
graph LR; A[internal::SchemaValidationContext::~~SchemaValidationContext] --> B[internal::ISchemaStateFactory::FreeState];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'internal::SchemaValidationContext::~~SchemaValidationContext'. The right box is gray with a black border and contains the text 'internal::ISchemaStateFactory::FreeState'.
