

fc::console_appender::log

fc::dmlog_appender::log

fc::log_message::get_data

```
graph LR; A[fc::console_appender::log] --> D[fc::log_message::get_data]; B[fc::dmlog_appender::log] --> D;
```

The diagram illustrates a dependency or data flow. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'fc::console_appender::log' and the bottom box contains 'fc::dmlog_appender::log'. On the right, there is a gray rectangular box with a black border containing the text 'fc::log_message::get_data'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both appenders utilize the 'get_data' method of the log_message object.
