

sysio::chain::webassembly  
::interface::\_sysio\_f64\_sqrt

sysio::vm::binary\_parser  
::parse\_function\_body\_code

f64\_sqrt

```
graph LR; A["sysio::chain::webassembly::interface::_sysio_f64_sqrt"] --> C["f64_sqrt"]; B["sysio::vm::binary_parser::parse_function_body_code"] --> C;
```

The diagram illustrates a mapping or dependency. On the left, two white rectangular boxes with black borders contain the names of source functions. The top box contains 'sysio::chain::webassembly::interface::\_sysio\_f64\_sqrt' and the bottom box contains 'sysio::vm::binary\_parser::parse\_function\_body\_code'. On the right, a smaller gray rectangular box with a black border contains the name of the target function, 'f64\_sqrt'. Two blue arrows originate from the right side of the two source boxes and point towards the left side of the target box, indicating that both source functions are associated with or map to the target function.
