

Catch::CompactReporter
::sectionEnded

Catch::ConsoleReporter
::sectionEnded

Catch::getFormattedDuration

```
graph LR; A[Catch::CompactReporter::sectionEnded] --> C[Catch::getFormattedDuration]; B[Catch::ConsoleReporter::sectionEnded] --> C;
```

The diagram illustrates two method calls from different reporter classes to a common utility function. On the left, two white rectangular boxes with black borders represent the calling methods: 'Catch::CompactReporter::sectionEnded' (top) and 'Catch::ConsoleReporter::sectionEnded' (bottom). On the right, a gray rectangular box represents the target function: 'Catch::getFormattedDuration'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating the direction of the function calls.
