

sysio::chain::protocol  
\_feature\_manager::lower\_bound

sysio::chain::protocol  
\_feature\_manager::upper\_bound

sysio::chain::protocol  
\_feature\_manager::begin

```
graph LR; A["sysio::chain::protocol<br/>_feature_manager::lower_bound"] --> C["sysio::chain::protocol<br/>_feature_manager::begin"]; B["sysio::chain::protocol<br/>_feature_manager::upper_bound"] --> C;
```

The diagram illustrates a relationship between three components. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'sysio::chain::protocol' followed by '\_feature\_manager::lower\_bound' on the next line. The bottom box contains the text 'sysio::chain::protocol' followed by '\_feature\_manager::upper\_bound' on the next line. On the right, there is a single gray rectangular box with a black border containing the text 'sysio::chain::protocol' followed by '\_feature\_manager::begin' on the next line. Two blue arrows point from the right side of the top-left box to the left side of the gray box, and another two blue arrows point from the right side of the bottom-left box to the left side of the gray box.
